Hello Ms. Williams,

MTS has located video of your incident on 10/10/2011. Per our agency policy, we charge \$5.00 for CD/video production requests. At your convenience, please send us \$5.00 via cash or check to the address below with the annotation "ATTN: Public Records Request" so that we can mail that to you as soon as possible. Can you also e-mail me your mailing address?

Thank you,

Raymond Pascual

Hello Ms Williams,

I am conducting an investigation of the assault that took place on 10-10-2011 at around 0936 hours. I have reviewed video footage. It's unfortunate that an accident like that could result in an attack of that nature. What I need to know is, if you spoke to PD, did you obtain a case/ incident number. Did you sustain any injuries? If this person is contacted, are you willing to press charges? We'll start with this info and go from here.

I will be the one for your point of contact and hopefully, if this person is a regular passenger, we can get him. Any questions, please feel free to call.

Thank You

Sgt. Antonio Johnson

hello Antonio I will be contacting a Attorney either this week or early next week-I do appreciate this timely response and yes there is a Incident report number But before I forward it to you I want to find a attorney and have him review the report first-as I am am sure you can understand the prudency that accomanies this type

I have received and understand the instructions in this handout.

Patient/Guardian's Signature

Patient's Name: Leslie Williams

Caregiver's Signature

Caregiver's Name: Dr. Whiting

Special Instructions:

Follow up at Mercy clinic

Over the counter Motrin

Return for worsening/persistent symptoms

Cervical Spine Strain**WHAT YOU SHOULD KNOW:**

A cervical (sir-vih-kull) neck strain is when the neck is quickly whipped forward and back. It is also called a "whiplash." This injury is usually caused by contact sports or an accident, such as a car accident. This may cause stress and stretching of the muscles, tendons, ligaments, nerves, or other neck tissue. The pain may be sudden or start slowly. It may be felt at the time you hurt your neck or it may start hurting hours later. A cervical strain often heals in a few days. But, sometimes the pain may last for weeks or months.

INSTRUCTIONS:

- Apply ice to the sore muscle for 15 to 20 minutes each hour for the first 1 to 2 days. Put the ice in a plastic bag and place a towel between the bag of ice and your skin.
- After the first 1 to 2 days, you may apply heat to the injury to help relieve pain. You may use a warm heating pad, whirlpool bath, or warm, moist towels for 15 to 20 minutes every hour for 48 hours.
- Medicines:
